Price of plug-in mesh cable trays

Overview

Wire Mesh Trays | McMaster-CarrChoose from our selection of wire mesh trays, including over 475 products in a wide range of styles and sizes. Same and Next.

Key Takeaways

Plug-in wire mesh cable trays typically range from $20 to $150 per meter, depending on material, size, and coating.

Price Range and Factors

The cost of wire mesh cable trays varies based on several factors: Material: Stainless steel trays are more expensive than electro-galvanized or PVC-coated trays due to higher durability and corrosion resistance. Size and Dimensions: Wider or taller trays that support more cables generally cost more. Standard widths range from 50 mm to 300 mm, and heights from 50 mm to 100 mm.

Coating and Finish: Electro-galvanized trays are cheaper than 304 or 316 stainless steel trays, which offer superior corrosion resistance. Supplier and Bulk Orders: Prices can vary between suppliers like RS Components, McMaster-Carr, Alibaba, and EAE Electric. Bulk purchases often reduce the per-meter cost.

Typical Price Examples

Small electro-galvanized trays: Around $20–$40 per meter. Medium stainless steel trays: Approximately $60–$100 per meter. Large or heavy-duty trays: Up to $150 per meter, especially for industrial or high-load applications.

Additional Considerations

Installation Accessories: Clamps, bends, tees, and risers may add to the total cost. Ventilation and Fire Safety: Wire mesh trays provide ventilation, reducing overheating and fire risk, which can justify higher prices for premium materials. Customization: Some suppliers offer custom lengths, coatings, or modular systems, which can affect pricing.

For accurate pricing, it is recommended to check supplier catalogs or request a quote based on the specific tray dimensions, material, and quantity needed. Suppliers like RS Components, McMaster-Carr, Alibaba, and EAE Electric provide detailed product specifications and pricing options online.
