

Singapore Lighting Distribution Box Models and Specifications

Overview

E-catalogue general page | Legrand Singapore SingaporeWelcome to the Legrand Singapore E-catalogue. You can find technical information, certificates, descr.

Key Takeaways

Popular lighting distribution box models in Singapore include the XM series by NewLight Energy, HENSEL ENYBOARD and ENYSTAR systems, and distribution boards from ABB and Schneider Electric.

X

M Series Distribution Box (NewLight Energy) The XM series is widely used for building lighting and small power control circuits in hotels, apartments, hospitals, ports, and industrial facilities. Key features include: Voltage & Current: AC 50Hz, single-phase 220V or three-phase 380V, up to 200A Protection: Line overload, short circuit, and line switching Installation: Indoor wall-mounted or outdoor protective boxes (metal or perspective doors) Environmental Limits: -5°C to +40°C, relative humidity up to 90% at 20°C, altitude ≤ 2000m Construction: Electrolytic steel plate with epoxy resin electrostatic spraying for durability and aesthetics Applications: Suitable for civilian areas and non-professional access zones

HENSEL Distribution Systems (Asiatic Group) HENSEL offers ENYBOARD, ENYSTAR, ENYMOD Mi, and ENYSUN systems for commercial, industrial, and photovoltaic applications: ENYBOARD: Compact, up to 63A, for safe and economical building power supply ENYSTAR: Flexible assembly for distribution boards up to 250A, IP66 protection for outdoor and harsh conditions ENYMOD Mi: Self-assembled power distribution boards up to 630A, compliant with IEC 61 439 standards ENYSUN: Pre-fabricated, tested solutions for photovoltaic power plants

Material & Protection: Thermoplastic Polystyrene or Polycarbonate, IP65-IP67, UV-resistant, halogen & silicon-free, flame retardant, double insulated (Class II)

Other Brands Available in Singapore Local distributors like Lim Kim Hai Electric supply a wide range of distribution boards from reputable brands such as ABB and Schneider Electric: Function: Divide electrical power into subsidiary circuits with protective fuses or circuit breakers Applications: Residential, commercial, and industrial lighting and power distribution Customization: Options for indoor and outdoor enclosures, various current ratings, and modular designs

Considerations for Selection When choosing a lighting distribution box in Singapore: Current rating: Match the expected load of lighting circuits IP rating: IP65-IP67 for outdoor or humid environments, IP20-IP44 for indoor use Installation type: Wall-mounted vs. freestanding or outdoor protective boxes Compliance: Ensure adherence to IEC standards and local electrical codes Material & durability: Corrosion resistance, UV protection, and flame retardancy for long-term safety

These models and suppliers provide a comprehensive range of options for lighting distribution in Singapore, from small residential setups to large commercial and industrial installations.

Welcome to the Legrand Singapore E-catalogue. You can find technical information, certificates, descriptions, installation guides, BIM files and more in one place.

NewLight Energy Singapore Pte. Ltd.

Our main products include prefabricated substations, high and low voltage switch cabinets, electrical distribution box, distribution and other electrical equipments, as well as solar

Asiatic Group

The range of distribution boards and junction boxes are made from Thermoplastic Polystyrene and Thermoplastic Polycarbonate with

Lighting box

These products deliver dual-standard compliance for ultimate safety, flexible customization for diverse scenarios, efficient heat dissipation, and intelligent monitoring capabilities in select models.

Electrical Solutions

Our Distribution Boards are used for power receiving, feeding, metering and lighting in residential buildings. Like our Main Switchboards, the modular size makes it

Switchgear Switch Board Power Distribution Manufacturer

MATRIX Switchgear Design Pte Ltd is incorporated in Singapore in Year 2001 by a skilled team with more than 30 years of experience in the manufacturing of Low Voltage Modular Switchgear,

Distribution board | Legrand Singapore Singapore

Modular Distribution block - 1p - 125 A - 16 connections Compare Add to project list
LEGRAND

Lighting Distribution Panel

JUNON Lighting Distribution Panel, upgrading and adapting to the new

Distribution Boards Distributor Singapore

We distribute an extensive range of distribution boards, including reputable brands such as ABB, Schneider Electric & more.
