Key Takeaways

Cable tray prices in Latvia typically range from €35 for small retail units to €20–€25 per meter for industrial-grade trays, depending on material, type, and installation requirements.

Retail Prices

For small-scale purchases, such as individual trays for office or home use, prices can start around €35 per unit, as seen with the LogiLink ORCC01G cable tray available in Latvia, which includes VAT and delivery options. These are suitable for light-duty applications or DIY projects.

Industrial and Project Pricing

For larger installations or industrial projects, the cost is usually calculated per meter and varies significantly based on material and type: Galvanized steel trays: Common and durable, typically €2–€15 per meter depending on thickness and finish. Aluminum trays: Lightweight and corrosion-resistant, generally more expensive, around €10–€25 per meter. Stainless steel trays: Highest durability and corrosion resistance, often used in food or marine environments, costing €20–€25+ per meter.

C or plastic trays: Budget-friendly, suitable for light loads, usually €5–€10 per meter. The type of tray also affects cost: ladder trays are more expensive due to their load-bearing capacity, while perforated or wire mesh trays are cheaper and easier to install.

Additional Cost Factors

Installation labor: Skilled labor in Latvia can add significantly to the total cost, especially for complex routing or high ceilings. Coatings and finishes: Hot-dip galvanizing (HDG) or powder coating increases durability but raises upfront costs. Shipping and handling: Heavier trays, such as steel, incur higher transport costs.

Customization: Custom lengths, bends, or supports can increase the price.

Market Overview

Latvia imports a significant portion of its cable trays, and prices can fluctuate based on material availability and supplier margins. Local manufacturers, such as Brilltech Engineers, offer customized solutions for residential, commercial, and industrial sectors, which may provide competitive pricing for bulk orders.

Summary

Small retail units: ~€35 per trayIndustrial per-meter pricing: €2–€25 depending on material and typeAdditional costs: Installation, coatings, shipping, and customization For accurate budgeting, it is recommended to request quotes from local suppliers, considering both material and installation costs, especially for large-scale projects.
