Wholesale of cable management racks channel type

Overview

Cable Management Tray Cable Manager For Data This innovative cable manager is designed to streamline your Cable Manager Cable Organizer Suppliers, Manufact.

Key Takeaways

Channel-type cable management racks are available wholesale from manufacturers like COBTEL and distributors such as American Tech Supply, offering 19-inch rack compatibility and modular designs for data centers. OverviewChannel-type cable management racks, also called cable organizers or holders, are designed to route and secure network cables neatly within server cabinets or racks. They prevent cable sagging, maintain proper bending radius for copper or fiber cables, and improve airflow and accessibility in dense network environments.

These racks are typically 19-inch standard width and come in various depths (600mm, 800mm, 1000mm, 1200mm) to fit different cabinet sizes. Wholesale Suppliers and ManufacturersCOBTELOffers ABS channel-type racks with 24-port 1U configurations. Features perforated channels for easy cable identification and replacement.

Compatible with cabinets ranging from 600mm to 1200mm deep. Designed for low-cost, repetitive cable management in data centers. American Tech Supply (ATS)Provides ICC ladder racks and cable management racks with integral vertical cable channels.

Racks are made from hybrid steel or aluminum, supporting heavy equipment. Includes cable tie anchor points, hangers, and accessory packs for organized installations. Available in multiple heights and lengths (3–10 ft), with black powder-coated or polished aluminum finishes.

Other Distributors

Platforms like Alibaba and specialized suppliers offer bulk options for channel-type racks, including modular 1U and multi-port designs, suitable for large-scale deployments.

Key Features to Consider

Material: ABS plastic for cost efficiency; steel or aluminum for durability and EMI/RFI shielding. Port Count: Commonly 12, 24, or 48 ports per 1U unit. Load Capacity: Metal racks can support 50+ lbs per inch; polymer racks typically up to 15 lbs per inch.

Installation: Tool-free modular loops or pre-drilled mounting holes for easy assembly. Expansion: Select racks with 25–30% extra capacity for future growth.

Benefits of Channel-

Type Racks

Maintain organized cable routing and reduce network downtime. Protect cables from breakage and EMI interference. Enable scalable infrastructure with easy access for maintenance.

Improve thermal management by preventing cable obstruction of airflow. For wholesale purchases, contacting manufacturers like COBTEL directly or distributors such as American Tech Supply is recommended to obtain bulk pricing, shipping options, and customization for specific rack depths and port configurations.
